

Serial No.:

**Remarks**

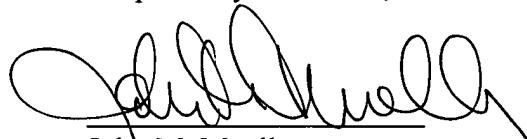

A priority claim has been added to indicate the claim of priority as a continuation application of co-pending U.S. Application Serial No. 10/081,026 filed February 21, 2002 now issued U.S. Pat. No. 6,682,143 issued on January 27, 2003.

Originally filed claims 1-36 have been cancelled without prejudice. New claims 37-38 are presented herein. The new claims are added to more clearly point out and distinctly claim that which applicants regard as the invention. Applicants note that all of the new claims presented herein are at least as broad as all of the claims allowed in the previously filed application from which priority is claimed. Support for the new claims presented herein can at least be found in the specification, claims, abstract and drawings of the originally filed application, which is identical to the application filed herewith.

In view of the foregoing amendments, the application appears to be in a condition for allowance, and a formal notice thereof is requested.

The Commissioner is hereby authorized to charge any additional fees which may be required by this paper or to credit any overpayment to Deposit Account No. 200053.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'John M. Mueller', written over a horizontal line.
